5) Is a QUANTITATIVE probability provided for any procedure-specific risk?   [Instructions] [Examples]

○ Yes   ○ No

6) Is a QUALITATIVE probability provided for any procedure-specific risk?   [Instructions] [Examples]

○ Yes   ○ No

Alternative(s) to the Procedure   [Instructions] [Examples]

7) Is any alternative provided for the patient?

○ Yes   ○ No

Timing   [Instructions]

8a) Date shared or patient's/proxy's signature If missing, type "1/1/1111."

[   ]

8b) Date of procedure If missing from MR, type "9/9/9999."

[   ]

8c) Patient opted-out of receiving the consent document at least one day prior to the procedure   ☐

For Testing ONLY: Abstractor Experience

Did you experience issues interpreting this Study ID as a result of poor legibility?   ☐

Did you experience issues identifying the principal procedure for which the patient was consenting?   ☐

Without reviewing the Study ID further, do you have concerns regarding whether this document is for an elective procedure (i.e., suspect that the procedure may have been unplanned, emergent)?   ☐
